Eastern Ohio Western-Pennsylvania Marketing Area
Federal Order No. 36

VOL XXII-NO. 7

C. MACK ENDSLEY, Market Administrator

JULY 1991

BUTTER-POWDER HEARING

A hearing has been scheduled to consider a proposal to amend 31 Federal Milk Marketing Orders. The proposal would establish a separate classification and product formula price for milk used to produce butter and nonfat dry milk. The hearing was requested by 12 cooperative associations that represent a substantial number of dairy farmers who supply these markets. The cooperative associations maintain that the current and projected market value of milk used to produce butter and nonfat dry milk is less than the basic formula price, the Minnesota-Wisconsin price for manufacturing grade milk, which is the current price of such milk. They contend that this differ-

ence in the value of milk will increase substantially and create a financial hardship on dairy farmers whose milk is used to produce butter and nonfat dry milk. The cooperative associations have requested that this issue be handled on an emergency basis.

The hearing will be held at the Ramada Hotel - Old Town, 901 N. Fairfax St., Alexandria, Va. 22314, (703) 683-6000. The hearing will convene at 9 a.m. local time on July 30, 1991.

For further information contact John F. Borovies, Marketing Specialist, USDA/AMS/Dairy Division, Order Formulation Branch, Rm 2968, south building, P.O. Box 96456, Washington D.C. 20090-6456.

May Milk Production

Milk production in the 21 major states during May totaled 11.2 billion pounds, virtually unchanged from production in these same states in May 1990.

April revised production at 10.9 billion pounds was one percent above April 1990.

Production per cow in the 21 major states averaged 1,335 pounds for May, 11 pounds more than May

1990.

The number of cows on farms in the 21 major states was 8.42 million head, 10,000 head less than April 1991 and 80 thousand less than May 1990.

During the January-March period, the 21 major states produced 31.7 billion pounds of milk, 84.6 percent of the U.S. production. If producers in the remaining 29 states not surveyed monthly, followed the same pattern as the 21 states, the U.S. production would be 13.3 billion pounds for May 1990.

Top Ten Counties

May is historically the month with the highest milk production. Federal Order 33's producer receipts totaled 255 million pounds in May, 1991. Compared to May 1990, this is an increase of 20.2 percent. The increase is mainly due to Beatrice Cheese, Shipshewana, Indiana and Smith Dairy, Orrville, Ohio being regulated under Federal Order 33. These two plants explain the appearance of Wayne and

(continued on page 2)

(continued from page 1)

Holmes counties in Ohio and Elkhart county in Indiana in the top ten. Mercer county continues to lead Order 33 in producer receipts with 20.5 million pounds of milk.

While Federal Order 33's May production increased over a year

ago, Federal Order 36's production declined. Producer receipts for May 1991 was down 3.2 percent to 330.5 million pounds. The decrease is due to Smith Dairy being regulated in Order 33. Wayne county continues to lead Order 36

in producer receipts with 41.4 million pounds of milk.

The top ten counties in Federal orders 33 and 36 accounted for 39.6 and 49.4 percent of the total producer receipts in their respective markets.

FEDERAL ORDER 33 MARKET SUMMARY FOR JUNE 1991

Gross Class I utilization averaged 3,956,309 pounds per day during June 1991. On a daily basis this was a decrease of 8.2% from the previous month and 2.5% more than June 1990.^{1/}

The June 1991 Class I utilization of producer milk totaled 117,419,926 pounds or 50.0% of the reported producer receipts. This utilization percentage is 1.8% less than last month and 3.3% less than June 1990.^{1/}

The average butterfat test for gross Class I utilization was 2.2% for June 1991.

Receipts from 3,428 producers by 27 pool handlers regulated by Order No. 33 averaged 7,822,424 pounds daily for June 1991. On a daily basis this was 5.1% less than last month and 9.5% more than June 1990.^{1/}

Producers supplying the market decreased by 9 from the May 1991 total and increased by 207 from June 1990. The daily average producer receipts per farm of 2,282 pounds were 115 less than the previous month. On a daily basis this is 64 pounds more than June 1990.^{1/}

The June 1991 Class I price was \$12.08 per hundredweight for 3.5% milk delivered to pool plants in Zone 3. This was 2 cents more than the May 1991 Class I price and \$2.28 less than the June 1990 price. Prices for Class I milk in parts of the marketing area other than Zone 3 reflect the specified location adjustment of minus 24 cents in Zone 1, minus 14 cents in Zone 2, plus 7 cents in Zone 4 and plus 15 cents in Zone 5.

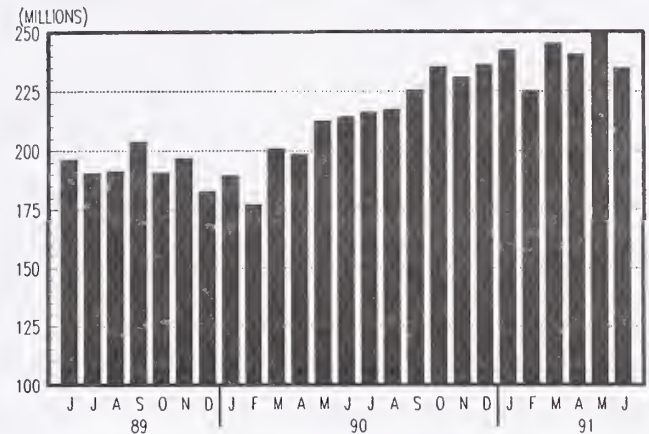

The Class II price for June 1991 was \$10.16. This was 15 cents more than the May 1991 Class II price and \$3.00 less than the June 1990 Class II price.

The Class III price of \$10.58 for June 1991 was 35 cents more than the previous month and \$2.70 less than the June Class III price.

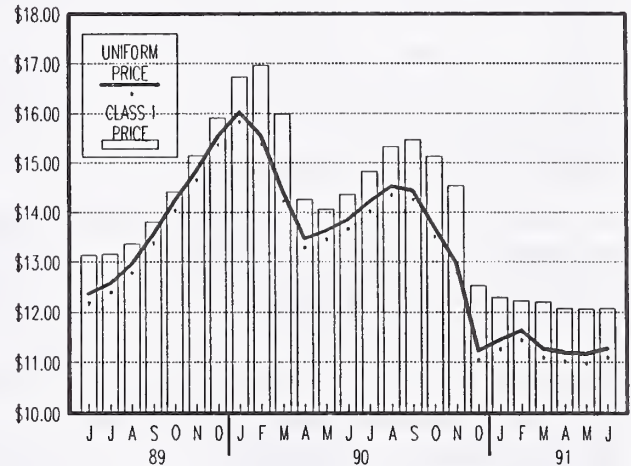

The July 1991 Class I price will be \$12.27 for 3.5% milk.

^{1/} Comparisons to previous periods are magnified due to changes in the handlers included in the pool.

FEDERAL ORDER 36 MARKET SUMMARY FOR JUNE 1991

Gross Class I utilization averaged 4,644,411 pounds per day during June 1991. On a daily basis this was a decrease of 6.0% from the previous month and 10.4% less than June 1990.^{1/}

The June 1991 Class I utilization of producer milk totaled 139,154,601 pounds or 47.0% of the reported producer receipts. This utilization percentage is 0.7% more than last month and 1.5% less than June 1990.^{1/}

The average butterfat test for gross Class I utilization was 2.1% for June 1991.

Receipts from 4,705 producers by 34 pool handlers regulated by Order No. 36 averaged 9,872,641 pounds daily for June 1991. On a daily basis this was 7.4% less than last month and 7.5% less than June 1990.^{1/}

Producers supplying the market decreased by 38 from the May 1991 total and decreased by 322 from June 1990. The daily average producer receipts per farm of 2,098 pounds were 150 less than the previous month. On a daily basis this is 25 pounds less than June 1990.^{1/}

The June 1991 Class I price was \$12.04 per hundredweight for 3.5% milk delivered to pool plants. This was 2 cents more than the May 1991 Class I price and \$2.28 less than the June 1990 price.

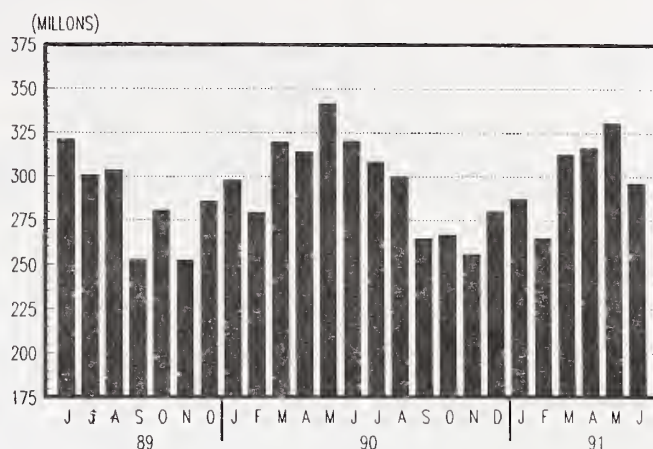

The Class II price for June 1991 was \$10.16. This was 15 cents more than the May 1991 Class II price and \$3.00 less than the May 1990 Class II price.

The Class III price of \$10.58 for June 1991 was 35 cents more than last month and \$2.70 less than the June 1990 Class III price.

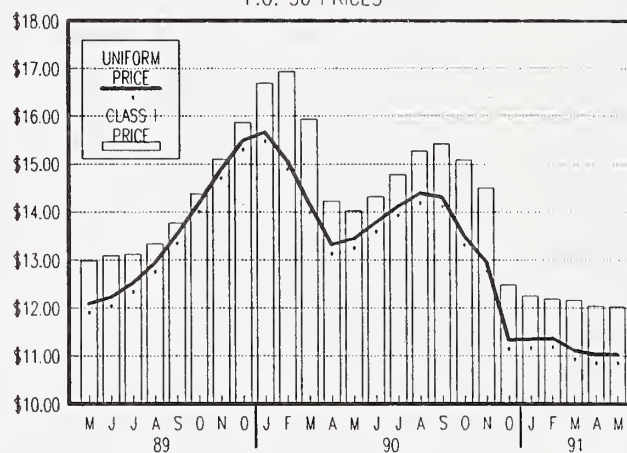

The July 1991 Class I price will be \$12.23 for 3.5% milk.

^{1/} Comparisons to previous periods are magnified due to changes in the handlers included in the pool.
